● 14:30 NETWORKING

“It has been an important year. Old wars, new battles, new actors on the stage of our fight for the right to healthy food. Let me remind you of just a few key events:

- **Commissioner Stella Kyriakides tells us that a sustainable food system may remain in the realm of plans and dreams. The European Commission is retreating from further plans - the CAP and the plant protection regulation.**
- **We launch the Plant Based School, and over 200 candidates support the Program. Plant Based School captures hearts and enters political offices.**
- **We kick off two programs for Future Food 4 Climate - we are creating a Safe Food Federation and together with the Food Voices Coalition, strengthening FF4C.**
- **"Dining on Despair" wins the Best Short Documentary Film title at the Green Film Festival.**
- **We conduct two important studies: Vegans in School Cafeterias, Climate on a Plate, and start another adventure - the "Plant Based School on a Plate" manual.**
- **We are present at subcommittee meetings and become stakeholders of EFSA.**

We certainly have a lot to do. What 2024 has taught us is important because it has shown us how to transform the voices of citizens into advocacy, and how to use advocacy to tell a story about food—one that is understandable and close to our hearts.”

Where Are We Heading in the Food System? (video)

dr Tadeusz Pomianek, President of the University
of Information Technology and Management in Rzeszów

“Thank you for writing the history of science, which supports change, justice, and stands on the side of solidarity. Thank you for wanting to use your skills and knowledge to create a just transition. I want to share with you a few facts.

- **Did you know that no city or municipality in Poland has a food policy?**
- **Did you know that nearly 80% of meals served in school cafeterias in Mazovia contain meat?**
- **Did you know that one in three children in Poland is obese or overweight?**
- **Did you know that Poland spends 10 million euros annually on animal milk in cartons as part of the EU School Scheme – funded by the Common Agricultural Policy?**

Expert Panel

Moderator:

- **Dr. Marzena Cypryańska - Nezelek, Center for Climate Action and Social Transformation SWPS**

Speakers:

- **Filip Pelc, Councilor of the Białołęka District**
- **Aleksandra Owca, Councilor of the City of Kraków**
- **Monika Kwiatkowska, Councilor of the City of Lublin**
- **Anna Maria Krasnodębska, Councilor of the Żoliborz District**
- **Agnieszka Krzyżak-Pitura, Councilor of the Mokotów District**

“Let’s meet on the path of the Plant Based School. See you in offices, at meetings, at public hearings. As a board member of REV, but also as an activist for women's rights and LGBTQ rights, I want to make it clear - this system will change when we, in our minds and hearts, understand that the time for violence against the most vulnerable groups, violence against other species, and our daily violence is a driving force of destruction, and a path leading to the past. We are looking towards the future, and we say:

**Go Vegan
& Stay Vegan.”**
